

Work Experience

Junior Graphic Designer RMA Sport & Roma Medical

March 18 - July 19 **1.4 Yr**

Roma Medical and RMA Sport are a small company based in Bridgend. Roma Medical specialises in hospital and mobility aids while RMA Sport specialises in sports wheelchairs for para-athletes.

While working at RMA Sport and Roma Medical I was responsible for taking accurate photography of new products while ensuring studio and lighting setup was correct, I was soley responsible for social media account management and creation of social media assets, printing and preparing vinyl assets for the sports wheelchairs, using a Roland SG300 printer. I would assist the lead designer with various updates and create web assets for the four websites under the Roma umbrella, as well as the design of any marketing materials required. I also wrote new copy for the RMA Sport website when the companny went through a rebrand.

Working with the technical manager, I would design manuals, parts lists and brochures required for new products. I would then add these products to the e-commerce portion of the RMA Sport or Roma Medical websites.
